

Minecraft

Grace

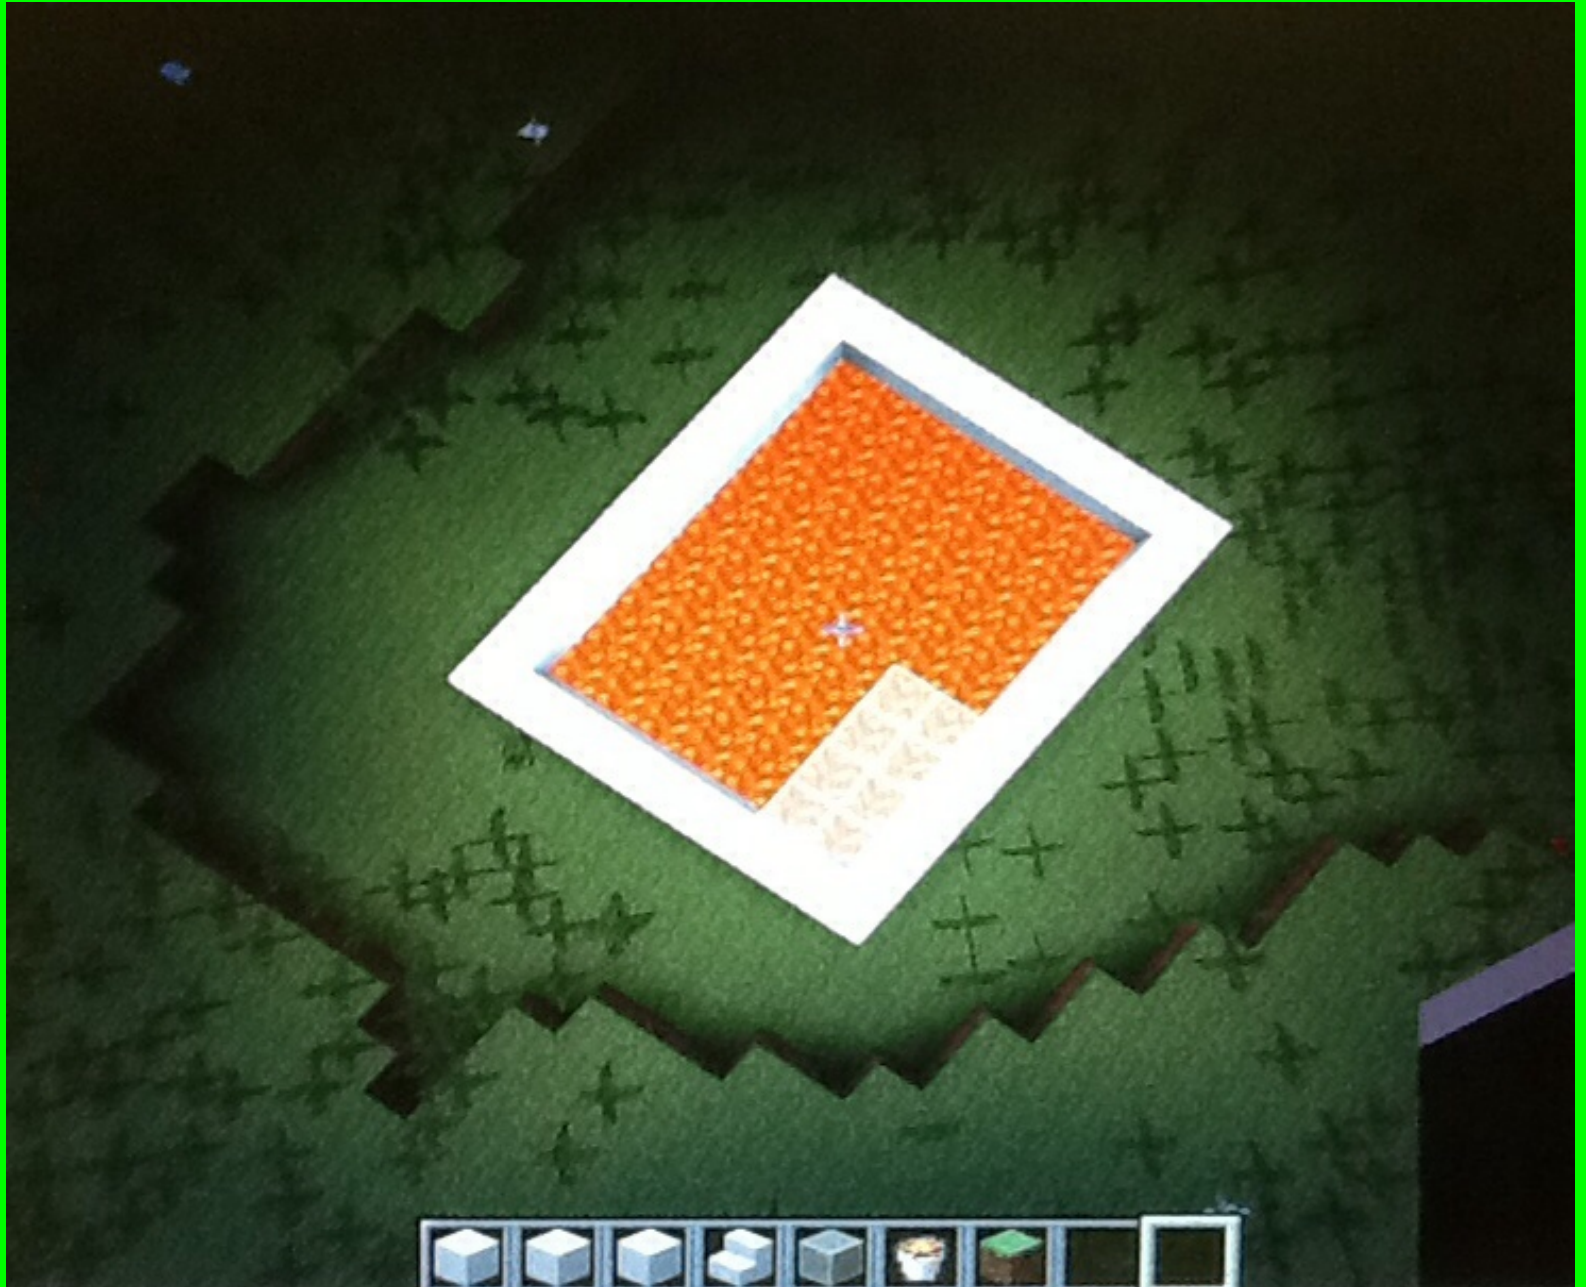

I wanted to build this.

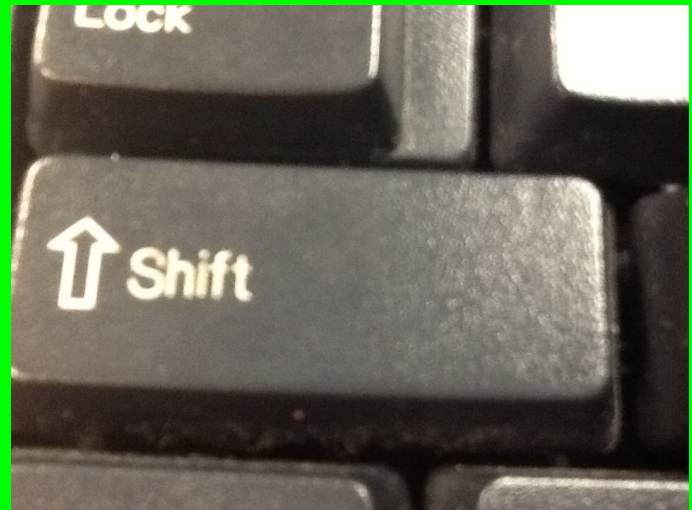

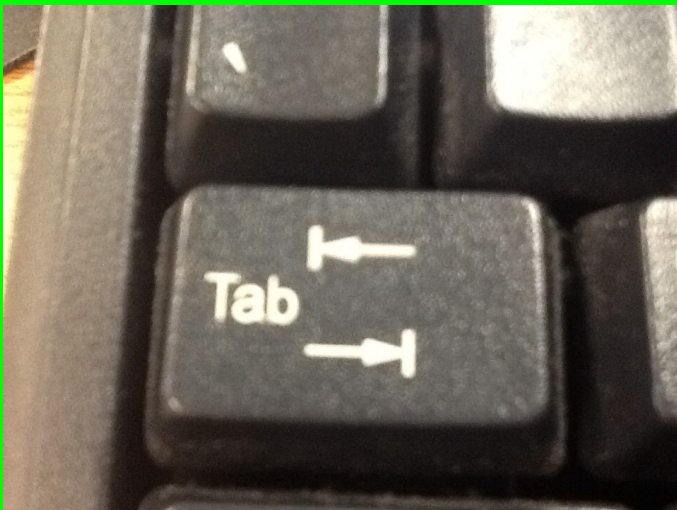

I wanted to build a big house.

I was trying to make a lava floor with glass over.

I would like to show people
the shift command and the
tab command.

My house got destroyed and I rebuilt it but, with wood instead of cobblestone. (Not mine)

I built a new house.

I built a new house on a new
server.

I was in the middle of building a giant Steve.

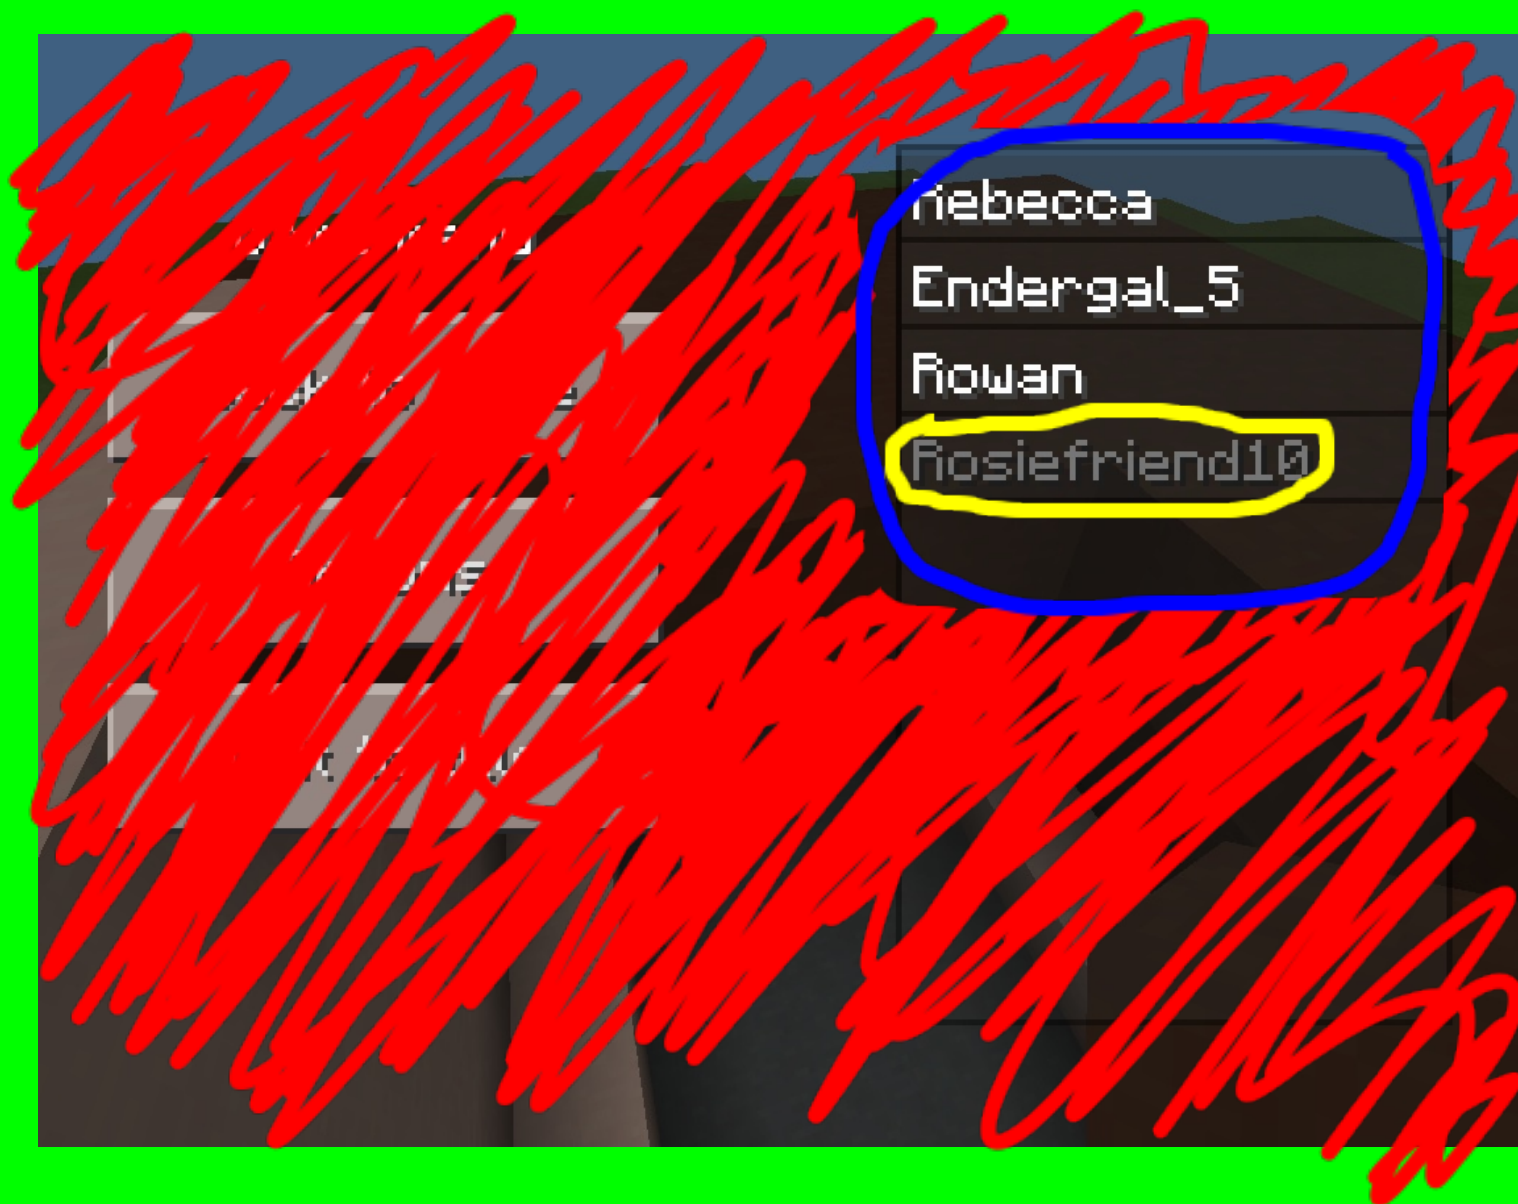

I finished my Steve/House.

Someone burnt down my Steve/House. :(

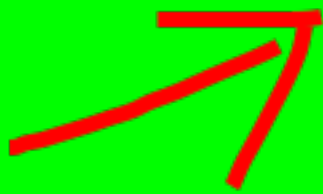

I made a new world with...

I built the fountain I wanted build
in the first class.

mine

I built a new house and a forest behind it with a camp fire.

I went a a Disney server with Endergal_5.

Me and Endergal_5 played skyblock.
